The School ICT Integration People

The Human
Fundamental
Intelligence, that
makes humans
human.

SQ distinguishes
from IQ and EQ.

SQ Life

- SQ increases creativity/leadership/grades and others
- SQ increases psychological wellbeing/euphoria/satisfaction to one's life/, and enjoyment, and lowers melancholy/stress and others
- SQ increase character/ ethicality, and lowers tendency of violence, delinquency, addiction, and other
- SQ increases job satisfaction, personal achievements, organizational performance, Organizational citizens action, and lowers rate of absenteeism, seperation rate, and others.

SQ Effect

According to research, SQ brings a positive effect in different aspects directly related to human life stated as follows;

History

The Global SQ Research Institute developed and commercialized Korea's first SQ test system to develop the right personality career guidance and potential.

The global research institute which is the one of the best research institute of Korea intends to provide answers through SQ research education and training of experts in Africa on many problems that modern society can not overcome as well as contribute to creation of individuals and societies that have been restored in their original form.
